

STANDARD FORM NO. 64

# Office Memorandum • UNITED STATES GOVERNMENT

TO : Director of Training

**CONFIDENTIAL**

DATE: 14 April 1960

FROM : Chief, Plans and Policy Staff

SUBJECT: Weekly Activity Report #15

[REDACTED]

25X1

On 7 April, [REDACTED] informed C/PPS that Mr. [REDACTED] former Training Station instructor, had not done too well in his full-time [REDACTED] instruction. On the basis of [REDACTED] plans to go ahead with [REDACTED] proposed liaison ops assignment in [REDACTED]

### 3. Nuclear Warfare Manual

C/PPS attended a meeting on the Nuclear Warfare and the Clandestine Agent manual chaired by [REDACTED] Undoubtedly CO/OS will report on this in full, but suffice here to remark that the meeting was very well run and full agreement was reached on the content of the "final" draft, on printing as opposed to other means of reproduction, on the size and general format, and on use of color photos.

25X1

### 4. Distribution of Book Dispatches

We have been dragging our feet on this problem. A talk with Mr. [REDACTED] of RI has revealed that SS/A-DD/S is the key to our (OTR) being placed on automatic distribution from RI (to [REDACTED]) for certain types of book dispatches, either for information or for training purposes. Our next step, therefore, is to contact [REDACTED]

5. Coordination of CIA Speakers and Recording of CIA Training for the Armed Forces

Draft issuances on these subjects are being processed by the Registrar.

6. IOTP/Orientation

A progress report on the Orientation Course was submitted to DTR on 14 April 1960.

7. Task Force Training

[redacted] CA/PMD, was advised on 14 April that the DTR will be available to speak for some five minutes (0900) to open the "Task Force Operations Familiarization Training Program" on 2 May 1960, beginning at 0900.

25X1

8. Personnel

By arrangement with [redacted] talked at length on 13 April with [redacted] concerning the latter's career possibilities in OTR and DD/P. After taking all known factors into consideration, especially [redacted] present grade (GS-9) and the fact that he has been passed over by DD/P, [redacted] recommended that [redacted] request a change of career designation from DI to ST. [redacted] emphasizes his intense interest in periodic overseas, operational assignments. Although he has been "DI," his main interest is in "PP"-type operations, preferably in Africa or in Southeast Asia (Vietnam). He currently is attending night school at American University.

9. Teletape Program

DD/P planning for an expanded Teletape program is moving along briskly. The details are being coordinated with Commo. However, the general outline of the scheme already has the concurrence of [redacted] and of the Office of Security. The proposal (which incidentally has not yet been aired within DD/P nor approved by Mr. Bissell)

calls for installing the Teletape scheme at [ ] stations, many of which 25X1  
would transmit tapes via the new [ ] electrical circuits and the 25X1  
remainder by unaccompanied State and military pouches. [ ] 25X1  
who is doing the planning, is asking for \$1,250,000 in his FY '62 budget  
to purchase automatic typewriters and related equipment. He estimates  
the need for about 270 typewriters--an IBM model now in prototype,  
which is expected to be available commercially about the end of 1961.  
The availability of this new machine is the determining factor in the  
timing of the expansion of the Teletape system.

10. Briefing Program for Adult Dependents

[ ] on the briefing program for adult dependents, has been 25X1  
published. The original draft was prepared in PPS. However, before  
publication the Director personally revised the draft to shorten and  
strengthen it.
